Smart Touch Panels

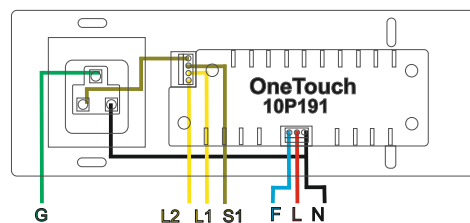

Quick Installation Guide

Customer Care: +91-85-26 26 26-48

To have installation video visit :
www.onetouchindia.tech

Step1: Product Installation

OneTouch panels are user friendly to install, similar to the traditional wiring connection and pre-installed wiring should be ok for the use.

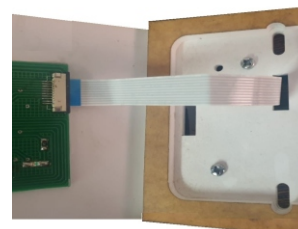

● L1 : Main Light ● L2 : Secondary Light
● S1: Switch for any Device ● S2: Socket
● F : Fan ● L : Live
● N : Neutral ● G : Ground

Wiring should be done according to the image above. Make sure to Remove paper coverings before installing the product and make sure to have mains connection off.

Step2: Front panel Installation

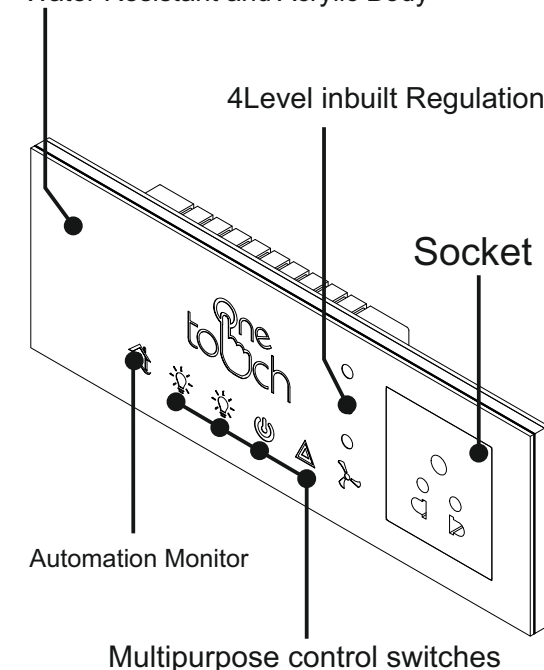

While installing front panel make sure blue part of the strip is on the front side. (As the front panel is delicate part of the model; it must be handled with some extra care.)

Once the system comes to live, Red Light will turn on indicating the configuration mode. It will make about 15sec to complete the configuration. Kindly don't touch the device in the configuration mode.

Now System is Ready for daily use.

Water Resistant and Acrylic Body

Step 3 :Mobile App installation

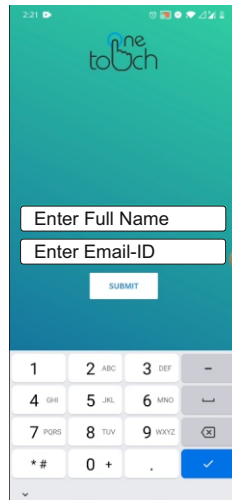

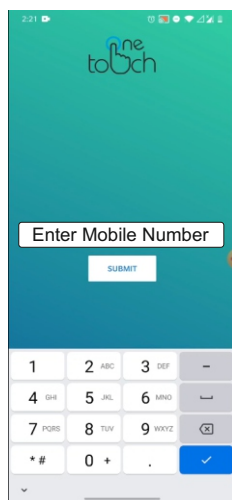

Download App from PlayStore
Name : "OneTouch Panels"
Or Scan the QR code:

Step4:

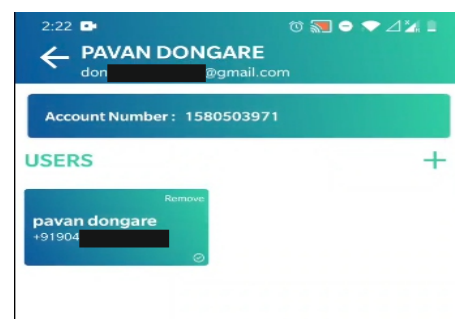

Verify Mobile Number

Give the details

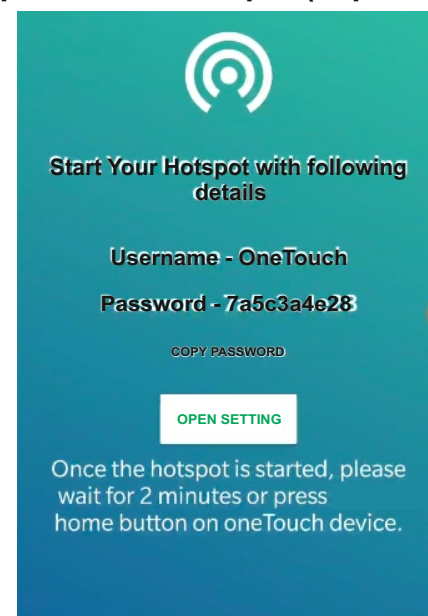

Step5 :

1. Once the Details are given the menu page will be displayed.
2. If you have any Joining request then it will be popped up here or else you have to just tap to create your own Admin Account.
3. Make sure that the device present in one account can not be added in the others.
4. Make sure that the admin account cannot be transferred. But yes the user can recreate the new one.

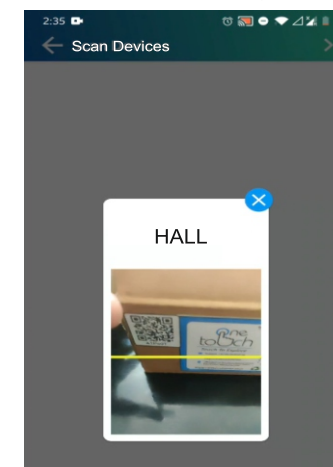

Step6 : Click On button : New Configuration

Step7 : Create Hotspot.(important)

Step8 : Click on Scan Devices.

Every product comes with UDN. (Unique Device Number) with a QR code. Scan the QR code to verify and add the specific device to your Account. Also mention in which room your device is fixed.

Press Done to complete the process.
